

COMPACT SERIES MULTI-TON AIR CONDITIONING

High-capacity air conditioning in a compact package

27,000 BTU/hr Compact unit shown

The Compact series of self-contained marine air conditioners offers 18,000 and 27,000, and 30,000 BTU/hr of reverse-cycle cooling and heating.

These high-capacity units were engineered to harness and maximize the impressive performance of environmentally safe R-410A refrigerant. Used in the HVAC industry for more than 10 years, R-410A is proven and reliable, complies with all EPA standards, and is accepted worldwide.

All models offer direct expansion operation in a compact, low-profile unit, with a seawater-cooled condenser and choice of controls. Compact units are designed for installation under a settee or berth, in a locker or cabinet, or other convenient location.

Compact systems feature high-velocity (HV) blowers. All blowers are insulated to prevent secondary condensation, and are fully rotatable for flexibility during installation. A stainless-steel chassis is standard on all Compact models.

The 30,000 BTU/h model features dual evaporator coils and a single compressor on a single chassis. The dual high-velocity (HV) blowers can be ducted to two or more interior spaces.

The dual-blower 30,000 BTU/hr unit with stainless-steel chassis.

KEY BENEFITS

- Compact design reduces unit size by up to 25% of the original Vector Rotary's size
- High-velocity (HV) fully-insulated blowers are rotatable
- Patented design increases cooling capacity and dehumidification
- Engineered to maximize the performance of R-410A, an environmentally safe refrigerant
- Unique compressor and reversing valve mounting reduces vibration
- Electrical box is installed within unit footprint on 18K and 27K models; remotely mounted for 30K models
- High-efficiency rotary and scroll compressors are quiet and more reliable
- Condenser coil's cupronickel-encased copper condenser coil provides maximum heat transfer and high resistance to corrosion
- Evaporator coil employs an enhanced fin design and rifled copper tubing to provide maximum capacity
- 27K and 30K models available in 3-phase power on a special order basis
- 5 ft. (1.5 m) air sensor standard
- Operates with selected displays

SPECIAL OPTIONS

- Display cable

Mobile living made easy.

SPECIFICATIONS

Model ⁽¹⁾	DCU18			DCU27		SVCD30	
Capacity (BTU/h) ⁽²⁾	18000			27000		30000	
Voltage (V)	115	230	220	230	220	230	380
Cycle (Hz) ⁽³⁾ /Phase (Ph)	60/1		50/1	60/1	50/1	60/1	50/3
Full Load Amps (FLA) Cool (A)	11.1	6.4	5.7	8	7.6	9.7	4.96

Min. Supply Duct Size (in/mm)	7/178			8/204		5/127	
Quantity-Duct Connections	1			1		2	
Min. Supply Air Grille Size (sq in/sq cm)	100/646			140/904		150/968	
Min. Return Air Grille Size (sq in/sq cm)	200/1291			240/1549		250/1613	
Seawater Inlet Connection (in/mm)	5/8/16			5/8/16		5/8/16	
Net Weight (lbs/kg) ⁽⁵⁾	64/29.1	69.45/31.6	70/31.8	120/54.5		108.25/49.2	TBD
Gross Weight (lbs/kg) ⁽⁵⁾	73/33.2	81/36.8	82/37.2	130/59		125/57.4	TBD

¹ To complete the model numbers for a specific voltage/cycle/phase, add a '-1161' for 115V/60Hz/1-Phase, or '-2361' for 230V/60Hz/1-Phase, followed by '-410A' (e.g. 'DCU27-2361-410A').

² BTU and electrical data are based on a 45°F/7.2°C evaporator and 100°F/37.8°C condenser in cool mode, and a 45°F/7.2°C evaporator and 130°F/54.4°C condenser in heat mode.

³ 60Hz units must not operate at 50Hz and 50Hz units must not operate at 60Hz unless data plate states otherwise.

⁴ All dimensions ± 0.30 in. (8 mm).

⁵ All weights ± 10%
