GENERATORS – DESALINATION – AIR-CONDITIONING – POWER ELECTRONICS

## AUTOTERM Air 4D

WITH HIGH ALTITUDE SENSOR  
& SILENT FUEL PUMP

- Works on diesel fuel
- Petrol version available for AUTOTERM certified services
- Maximum heating capacity of 4 kW for 12V or 24V model
- Produces up to 168 m<sup>3</sup> of hot airflow hourly
- Used to heat medium size space
- Reliable operation in low temperatures (up to -45°C/-49°F)
- Available in a standard or 3 different marine installation kits
- Low noise level, low fuel consumption (max 0.51 l/h), implemented self-diagnostic
- Can be operated with the control panel or via smartphone with an additional modem
- Best suited for medium or large size truck cabins, commercial vehicle cabins, cargo compartments, campers, motorhomes, boats/yachts (up to 48 feet/15 m long)

	High	Low
Voltage	12V or 24V	
Heating medium	Air	
Heating capacity	4.0 kW	1.0 kW
Hot air flow	168 m <sup>3</sup> /h	70 m <sup>3</sup> /h
Power consumption	57 W (12V) / 56 W (24V)	10 W
Max. work altitude (MASL)	4200 m (High altitude control unit)	
Fuel	Diesel	
Fuel consumption	0.51 l/h	0.12 l/h
Control option	Control panel or Modem	
Weight of the heater	5.5 kg	

### STANDARD INSTALLATION KIT: Air Heater AUTOTERM Air 4D

• fuel pump • fuel pump wire • power supply wire • exhaust pipe • air intake pipe with silencer • insulation for exhaust pipe • exhaust silencer with mounting kit • fuel standpipe • fuel pipe • mounting kit for harnesses • air intake mounting kit • mounting kit for fuel system • mounting kit for exhaust pipe and heater • control panel wire • warranty certificate • duplicate label

17 Blackmoor Road, Ebblake Industrial Estate, Verwood, Dorset, BH31 6AX.
