

Little Wonder Watermaker

LWM Series
6 to 8 GPH
22 to 30 LPH

Compact and reliable supply of fresh water. For sailboats and other marine applications.

The Little Wonder (LWM) Series reverse osmosis desalination systems are the preferred choice for boaters who require small low power watermakers.

The units are simple to install and easy to operate. Ideal for applications where space and power are limited. The quality components that go into the LWM units ensure safety and years of reliable service.
